

Wildfires — Are You Prepared?

Find out how you can promote and practice wildfire safety:

- **Design and landscape your home with wildfire safety in mind.** Create a 30- to 100-foot safety zone around your home and select materials and plants that can help contain fire rather than fuel it.
- **Meet with your family** to decide what to do and where to go if wildfires threaten your area.
- **Assemble a Disaster Supplies Kit** with items you may need if advised to evacuate. Store these items in sturdy, easy-to-carry containers such as backpacks, duffle bags, or trash containers.

The following are several items to include in your Disaster Supply Kit:

- A 3-day supply of water and food that won't spoil.
- One change of clothing and footwear per person and one blanket or sleeping bag per person.
- A first aid kit that includes your family's prescription medications.
- Emergency tools including a battery-powered radio, flashlight, and plenty of extra batteries.
